Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Detail-oriented Computer Science and Cybersecurity undergraduate with a strong foundation in network security, authentication protocols, and systems architecture. Proficient in Linux environments and version control using Git, with a proven ability to implement security best practices in software engineering. Dedicated to identifying vulnerabilities and deploying robust defensive strategies.

EDUCATION

Sri Sairam Institute of Technology **2024 – Present**

Bachelor of Engineering in Computer Science, Specialization in Cybersecurity **CGPA: 8.61**

Relevant Coursework: Cryptography, Network Security, Ethical Hacking, Data Structures & Algorithms, Operating Systems, Database Management.

TECHNICAL SKILLS

- **Technical Tools:** Linux (RHEL/Kali), Git, Wireshark, Metasploit, Nmap, Docker and Containerization
- **Programming:** Python, C, Java, SQL, Bash Scripting
- **Networking:** TCP/IP, DNS, VPN, Firewalls, Routing & Switching
- **Security:** Penetration Testing, Cyber Attack simulations
- **Soft Skills:** Technical Documentation, Analytical Problem-Solving, Cross-functional Collaboration, Agile Methodology

EXPERIENCE

RHCSA Intern **Dec 28, 2025 – Jan 20, 2026**

Advantage Pro / Vectra Technosoft Pvt Ltd **Chennai, India**

- Practiced system navigation, file operations, process handling, and utilities while monitoring performance and optimizing resource allocation.
- Managed users, groups, partitions, and permissions to enforce secure, multi-user production environments.
- Applied core system commands (systemctl, ps, kill) and permission models (chmod, chown) to control critical services and ensure secure system access.

PROJECTS

AgroSonic Defence – *IoT-Powered Smart Crop Protection System*

- Designed an IoT-powered smart crop protection system using embedded hardware, real-time sensing, and machine learning to detect and deter wildlife intrusion.
- Aimed at reducing 30–40% annual crop losses while significantly enhancing agricultural resilience.

ACHIEVEMENTS

- Directed a multidisciplinary team in a First-Year Ideathon, fostering high-impact collaboration and delivering a competitive project solution.

CERTIFICATIONS

- Google Foundations of Cybersecurity, Coursera
- Secure Coding and SSDLC for Developers, Coursera
- Introduction to Microsoft Azure, Coursera
- Microsoft AZ-500 Capstone & Practice, Coursera
- Intro to IT and AWS Cloud, Coursera
- Networking Basics, Cisco
- Python for Data Science, NPTEL
- Cloud Computing, NPTEL
- IBM Introduction to Artificial Intelligence, Coursera
- The Joy of Computing using Python, NPTEL
- Design Thinking: A Primer, NPTEL
